

CAMP McKINLEY

Governor Witnesses Movements of the Troops

General Charles Dick Reached Camp Late This Morning.

QUICK STREET CAR SERVICE TO THE CAMP GROUND.

Visitors Are Welcome—Smallpox Rumor is False—Officers of The Day—Provost Guard—Governor Interviewed—Little Sickness—Notes on Big Encampment Of the First Brigade.

Camp McKinley, July 15.—Today the camp of the First Brigade is in fine condition and the different regimental commanders are all busy at work with the routine of camp life. The Governor's coming to camp so early in the week has had a tendency to assist the men and officers to hurry along the work of policing and cleaning the camp quarters and now everything is in apple-pie order and the officers in charge have just cause to be proud of the outlook as well as the condition.

Last evening the Governor retired early and had an excellent night's rest, and was up bright and early this morning and in company with General McMakin and several of his staff rode through the camp of the Ninth Battalion and afterwards witnessed the skirmish drill of several of the regiments in the octagon fort.

The Governor expressed his delight

Lt. Col. O. J. Hopkins, assistant inspector general, who with Col. Taylor, will inspect the Brigade Wednesday and Thursday

over the camp and said he is enjoying his stay greatly. When asked to say something about the code bill and the special session of the legislature he smiled and replied that he had come to Newark for rest and recreation and was trying to dismiss politics from his mind. He therefore had nothing to say on the subject.

During the day a Cincinnati paper telegraphed to ascertain whether the date for the extra session had been changed to Sept. 5, but the Governor answered that the session will meet on August 25, the date first selected.

THE DAY'S OFFICERS.

The officers of the day and guard in the different regiments are as follows today:

First regiment, Captain Reid, Co. B. and Lieut. Pyrie Ranket, Co. F.

Second Regiment, Captain Phelps, Co. B, Lieutenants Wm. B. Strout, Co. I, and Charles D. Gamble Co. F.

Third regiment, Captain John C. Wilson, Co. L, Sidney, Lieutenants Mertz, Co. M. of Greenville, and Kuhns, Co. G, of Dayton.

Sixth regiment, Captain W. I. Squires, Co. H, Toledo, Lieutenant's Ames, Co. C, and Myers Co. L.

CAMP GUARD.

The detail of the guard at division headquarters is under the command of Lieut. Cronie of Co. D, of the Third. The Lieutenant is the editor of the Urbana Times. The detail for the guard is made up from the different regiments.

Lieut. Col. Bryant of the Sixth regiment has been appointed Provost Marshal for the entire time of the camp.

Lieut. Edward R. Smiley of Co. C of the Sixth, of Toledo, is acting as one of the provost officers.

Private Dauch of Co. B, is the orderly to the commanding officer of

THE PROVOST GUARD.

The provost guard about the city is very effectual, and in at least one case made its presence felt. Monday evening a crowd of about 15 men started down Third street and were beginning to be noisy. They were going down across the canal and made the remark that the "provost guard be damned." When they got to the bridge and were halted however, they changed their minds, and very meekly went back up into town. So far the soldiers have been well behaved.

NO SMALLPOX IN CAMP.

A report was circulated about Newark today that there was a case of smallpox in camp. Upon investigation of the city and township Boards of Health and of the doctors at camp it was proved conclusively that the rumor was false.

PROVOST GUARD

Any One Having Complaint to Make May Call the City Headquarters by Telephone.

One of the commendable things in connection with the encampment of the First Brigade is the establishment of a Provost Guard headquarters in the city. The headquarters were opened Monday night with the officers' headquarters in the room of the Agricultural Society in the northwest corner of the Court House, while the headquarters of the guard are in the convention room, and the guard room is in the corridor, which is constantly under armed guard, when there are any prisoners confined therein.

The guard on Monday night was Company C, of the Second regiment, composed of sixty members under command of Captain A. E. Gale. This company is considered one of the best companies in the Ohio National Guard, and won first prize at the state drill at the State Fair last season. It is one of the oldest organizations and was recruited at Lima, O. The company was on the alert at all hours of the night, but only one arrest was made at that was for fighting. Over 1000 soldiers, however, were sent back to camp, they failing to be supplied with passes. Two arrests were made on Monday by the city police, and the offenders will be turned over to the Provost Guard. A telephone has been placed in the office of the Provost Guard and any citizen having any complaint to make regarding the misconduct of any soldier, will be promptly attended to by the officers sending a detail of the guard to arrest the guilty parties. The citizens of Newark can feel assured that good order will prevail in the city during the encampment if vigilance on the part of the brigade officials can secure it.

DICK IS HERE

General Arrived at 11 O'Clock—Inspection of the Brigade—Practically No Sickness in Camp.

Camp McKinley, July 15—General Charles F. Dick, commanding the First Division of the Ohio National Guard, arrived at Camp McKinley at 11 o'clock this morning. The General expects to remain several days.

Captain Barker, Assistant Surgeon

A DELIGHT

Is Camp McKinley and the Soldiers are Enjoying It to the Full Extent.

Camp McKinley, near Newark, July 15—Perfect weather, admirable conditions, well trained soldiers, delightful surroundings, plenty to eat, almost ice cold water to drink, good music from

of the Third regiment said today that the health of the regiment was remarkable, and but that for a few minor accidents, occasioned by the games of base ball and the like, there would be no sickness at all.

Colonel H. M. Taylor, Assistant Adjutant General of the State and Colonel Owen J. Hopkins of that office will inspect the Second, Third and Sixth regiments in camp Wednesday and the First regiment and the Ninth Battalion on Thursday. These inspections will be followed by muster.

Company C of the Second regiment, was on provost guard in the city Monday evening.

Rev. Mr. Whitmore of Dayton, has been appointed Chaplain of the Third and received his commission today.

Private Elmer Fitch of Company B of the Third, was orderly at the headquarters of the Third regiment yesterday.

Postmaster Ickes is having mail for the Brigade delivered at the camp twice each day, the first time at 9:30 a. m. and 4 o'clock p. m. The mail is taken to the headquarters of the Brigade and from there to the different regiments.

Colonel George B. Donovan of the Governor's staff went to Toledo today on business.

Major Fred Marquis of the Eighth infantry of Mansfield, was a guest in camp Monday.

Colonel Ritzel, a member of the staff of Major General Chas. V. Dick, is in camp. The Colonel is the editor and publisher of the Warren, Ohio, Chronicle.

Mrs. H. M. Taylor of Columbus, wife of Assistant Adjutant General H. M. Taylor, will be the guest of her husband in camp tomorrow.

Mrs. S. B. Stanberry of Toledo was the guest of her husband, Colonel S. B. Stanberry of the Sixth infantry today.

Major Fisher of Canton, a member of the staff of General John C. Speaks, commanding the Second brigade of the O. N. G., is a guest at the division headquarters.

Colonel I. J. Ream, commanding officer of the Second regiment, a short sketch of which appears in today's Advocate, is the ranking Colonel of the state and is one of the most popular officers of the National Guard.

The several bands of the brigade gave concerts last evening which were listened to with much interest by a large number of Newark citizens.

The brigade has several of the finest concert bands in the state which can be heard each evening. The concerts are given by each band near the different regimental headquarters and visitors are welcome at all times.

Colonel George Freeman of Columbus, is in camp, having arrived this morning.

Colonel George M. Wright of Akron, Assistant Adjutant General of the Division arrived in camp this morning.

Cadet Charles Donovan, son of Colonel George B. Donovan of the Governor's staff, has been appointed an aid to the Governor for the camp.

The Governor has extended an invitation to Alexander Krum of Columbus to spend the week in camp as his guest.

Private Wm. Egging of Co. D of the First Infantry fell last evening and severely cut the under side of his chin.

Captain Vincent of the Battalion of Engineers has been appointed Ordnance Officer of the Brigade.

Private W. F. Rowl of Lebanon, Warren county, who is the representative from his district in the State Legislature has been appointed regimental clerk in the First regiment.

In the election of a second lieutenant in Co. F of the Third, Second Sergeant Cassius M. Taylor was elected to the office by a vote of 23 to 17 for Private Charles H. Davis, a former regular army man.

Captain Howe, quartermaster of the Second has been given a detail of six men for use in the commissary and quartermaster department.

five crack military bands, courteous visitors, competent and obliging officers, all combine to make Camp McKinley, the home this week of the First Brigade, Ohio National Guard, one big delight.

The camp is so gay ground but the military work is done in such a way that it doesn't seem like work to the men and with very few exceptions everybody is having a good time. Monday the routine was observed as well as could be done the first day of the camp, but there were necessarily some rough edges to smooth down before the camp could be said to be in good order. General McMaken and his officers have succeeded in smoothing all the little rough places away and today the First Brigade boys are camping like vets.

The camp is graced by the presence of Ohio's chief executive, Hon. George K. Nash and before the day ends Maj. General Charles Dick will probably be here though his coming is this morning said to be uncertain as to time. The officers have no word from him as yet. The general will inspect the troops when he comes. How long the Governor will stay is not yet known, but as he seems to be enjoying himself he will, it is thought, stay several days unless called away to attend to affairs of state.

A big crowd of people from Newark came out to camp last night to hear the band concert participated in by the musical organizations from the several regiments in the brigade and many were also present at dress parade earlier in the evening.

A provost guard has been established at Newark with headquarters in the court house. The commanding general has served notice that no disorderly conduct will be tolerated.

The Brigadier General said Sunday that the routine of the camp would be closely followed and he has kept his word. It is intended to be a camp of military instruction. Discipline is being rigidly maintained and due notice has been given that disorderly conduct will be severely punished. General McMaken said: "This camp will not be a picnic, but will be as the state intends it shall be, a military school."

CAN NOT ACCEPT.

Today Governor Nash received from General Corbin at Washington an invitation for him and the Ohio troops to take part in the maneuvers at Ft. Riley, Kas., but owing to lack of funds the Governor says the invitation cannot be accepted.

Y. M. C. A. TENT

At Camp McKinley is Very Popular Among the Men—Secretary Rea Kept Busy.

The Y. M. C. A. tent at the camp grounds is proving very popular among the men. It is not unusual to have a hundred men at a time using the correspondence tables, the games, the papers and magazines which are kept on file. Mr. Rea, the camp secretary, is kept busy handing out writing material, stamps, etc. to the boys, and his services seem to be very greatly appreciated.

Mr. Rawlings has placed an Eberly piano in the tent and now there will be music to while away the hours between drills, while men are off duty.

Plans are being made for a meeting for the men with songs and an address on Wednesday evening, and on next Sunday a mass meeting for the men. These and other features together make the Y. M. C. A. a place of real helpfulness to the men in camp.

STREET CARS

To Camp Ground Every Ten Minutes. Beginning at 4:30 p. m.—All Visitors are Welcome.

Camp McKinley, July 15—A mistaken impression prevails regarding the presence of visitors. While people are not allowed in camp after taps visitors are welcome at any time during the day or evening. Those who saw the parades last night and heard the band concert, enjoyed the evening thoroughly. Dress parade every night and music too every evening. Today the street car people began a ten minutes service to the camp ground from 4:30 p. m. on, the fare from Newark being 5 cents. Take a car tonight and come up to see the big camp. It's worth while. Cars run into the camp ground.

(Continued on Page 3)

SUPPLY

Of Food Getting Shorter Every Hour.

THOUGH CONFLICT AT CHICAGO MAY SOON END.

RAILWAYS ASK FOR ASSISTANCE

Six Gatling Guns Shipped in to Police. The Chicago Wholesale Menu are Determined.

Chicago, July 15.—All present prospects of peace in the struggle between the freight handlers and railroads seemed to vanish last evening. At 2 o'clock this morning the outlook was still dark but there is some hope that the conflict may be settled today.

Commission merchants said this morning that the food supply is hourly nearing exhaustion. Extraordinary efforts will be made to secure provisions, fruit and green stuff from the railways during the day. Pricers have gone soaring the last few days and carloads of produce have been spoiled. A plan has been started to relieve the situation. Instead of loading incoming cars at the freight houses they are backed up to cold storage plants, unloaded there, and then provisions are taken in charge of by the express companies. Railway officials are now calling for police help because their business is disturbed. The wholesale merchants are determined to do business even if the militia has to be called out. Six Gatling guns have been shipped from out of town to the police here.

Y. M. C. A.

MUST PAY TAX ON PART OF THE BUILDING.

Which is Rented to Merchants—This is Ruling of Attorney General Sheets Tuesday.

Columbus, July 15—Attorney General Sheets today gave the opinion that taxes must be paid on so much of the Cleveland Y. M. C. A. building as is rented out for business purposes. The whole building has been exempted from taxation under the law relating to religious society property. But the question was raised in Cleveland and the authorities there referred it to Sheets. This establishes a new precedent.

HARD AT WORK

Are Both Jeffries and Fitz—First Bet Recorded \$400 to \$1000 on the Cornishman.

San Francisco, July 15.—Both Jeffries and Fitzsimmons are hard at work at their respective quarters and express themselves as being satisfied with their condition. Public interest which has hitherto been dormant, is beginning to show itself. The first big bet was recorded last night when Jack Wolfe placed \$100 on Fitzsimmons against Henry Harris' \$1,000 on Jeffries.

Advocate census guessing coupon appears today on page 2.

CAPITALISTS

From the East Here Looking Over Electric Roads—Big Improvements to be Made.

General Superintendent J. R. Harri- gan and A. E. Appleby are here to-day with a party of Eastern capitalists who furnished the money for the recent purchase of the Newark & Granville and Newark city electric roads. The party went to Granville during the afternoon. An inspection is being made before deciding what improvements will be made. The lines are to be put in splendid condition.

Advocate census guessing coupon appears today on page 3.

British Columbia grew the world's record apple last year. It was 16 inches in circumference and weighed 1 pound and 3 ounces.

The New Maine.

Philadelphia, July 15.—The new battleship Maine will leave Cramps ship yard today at 3 o'clock on her way to Delaware Capes on the builders' trial trip. She must maintain a speed of 18 knots. The trial trip will take place Thursday.

King Edward Leaves.

London, July 15.—King Edward left Victoria station for the royal yacht at 11:35 this morning. The time of his departure was kept secret and no one saw him go but the attendants and doctors. He was brought to the train in an ambulance and carried on a couch into the train.

WIRELESS

Message Successfully Sent Five Hundred Miles by Signor Marconi in Europe Tuesday.

Copenhagen, July 15.—Signor Marconi today successfully transmitted a wireless telegraph message to Poldhu from Cape Skagen, Denmark, a distance of 500 miles.

MINISTER WU

WILL NOT LEAVE WASHINGTON FOR SEVERAL WEEKS.

New Chinese Minister a Graduate of Yale, Forty Years Old and Speaks English Fluently.

Washington, July 15.—It is expected that Minister Wu will not leave Washington for his new post in China for some weeks. His successor, Liang Chen Tung, is now attached to the Chinese special embassy to the coronation of King Edward, and the embassy is expected to attend the coronation ceremony in August. Then Minister Wu must have time within which to close up his affairs in Washington.

Officials personally acquainted with the new minister describe him as a man of imposing stature, being over 6 feet in height and slightly inclined to stoutness. He speaks English with the greatest facility. The new Chinese minister is a graduate of Yale and is about 40 years of age. The retiring minister Wu has been at Washington since 1897.

Minister Wu, in speaking of his return to China, said that the first and most urgent need of China was a financial readjustment, so as to relieve the country of the great and increasing burdens caused by the payment of foreign obligations in high-priced gold, while silver was the only current money.

Next in order, the country, he said, wanted three things: Education, railroads, and newspapers. More young Chinese students should study in the United States and Europe, and there should be a system of popular education.

Railroads were a strong force in educating the people by bringing them into closer contact and high-class newspapers were another form of education. The Minister did not intimate how the improvements he desired were to be brought about but called attention to the fact that he himself had been the advocate of the first railway to be built in China, and indicated that he should favor extension now.

Minister Wu intends to write two books, one on America, for publication here and the other on his observations outside of China for circulation in his native country. This latter work will be intended to spread Mr. Wu's ideas among the people of his own country. However, as he has occupied him at least two years' work in the codification of the sovereign laws of the Minister did not know when he could start his books. Said he: "We have ambition to do many things, but life is very short and there is not time for many things."

HELL BE KEPT BUSY.

London, July 15.—The Peking correspondent of the Daily Mail telegraphs his paper that Sir Liang Tung, whose appointment as Chinese Minister at Washington has been announced, has been named also Minister to Spain and Peru.

ANNIE

Tried To Kill Herself But She Failed.

MAN WITH WHOM SHE ELOPED, HOWEVER, IS DEAD.

MISS GRAHAM USED LAUDANUM.

Girl Who is on Road to Recovery Left Bourne Dead in the Woods, Near Pawtucket.

Pawtucket, R. I., July 15.—Annie Graham, 17 years of age, who, Mrs. Daniel D. Bourne told the police had eloped with her husband last Friday, was discovered last night on Central avenue, this city. She had taken a dose of laudanum with suicidal intent. She stated that she had left Bourne in Attleboro woods, dead, he having taken a dose of poison. The police are now searching for Bourne. The Graham girl will recover, the doctors say, this morning.

COAL MINERS

May Favor a Suspension of Work Throughout Bituminous Coal Field or Provide Funds.

Indianapolis, July 15.—The convention of soft coal miners will open Thursday and many delegates are already here. The convention is expected to number 1,000 delegates. Illinois, Ohio and Indiana representatives are beginning to arrive and it is expected most of the delegates will be on hand by tomorrow. Ten states are to be represented at the gathering. It is thought the convention will favor suspension of work through the entire bituminous field or provide for a defense fund to help the anthracite miners in this strike. The national and local treasuries are said to contain \$2,000,000, available for the fight.

JULY CORN

Dropped Eleven and Half Cents on Chicago Board of Trade in an Hour.

Chicago, July 14.—An eleven and a half cent loss within an hour was the record made by July corn on the board of trade this morning. It was the most remarkable drop recorded in years, but strangely, the decline was not attended by any unusual excitement. Heavy shipments to Chicago are responsible for the slump.

Before noon the price had gone to 67 and at 12:45 p. m. it touched 65 1/2.

Mine Explosion.

Johnstown, Pa. July 15.—A dynamite explosion occurred at 1:20 this afternoon in mine No. 22 of the Berwind-White Coal co at Windsor, 9 miles east of Johnstown. It occurred during blasting. Four men were injured. One of them, Roger Hardy, it is thought is fatally injured. Details are as yet unobtainable. Windber has no Western Union or Postal telegraph connections.

Received A Shock.

Wm. Shannon, a conductor on the electric street railway had his right hand seriously burned at the blocking station on East Main street in front of Dr. Baldwin's residence Monday night. He received a severe shock, and had to leave his car but was able to walk today.

Garber Stock Up.

Wapakoneta, O. July 15.—The fourth district Democratic congressional convention convened this morning after an adjournment last month at Celina and Sidney. The outlook is not different in any phase at present from the time of the last adjournment but Garber stock seems to be going up.

A. O. U. W.—There will be a meeting of the Pathfinders Lodge at A. O. U. W. Hall on the south side of the public square tomorrow evening at 8 o'clock.

CIRCUIT JUDICIAL TICKET.
For Circuit Judge,
S. M. DOUGLASS, of Mansfield.

The wool trade shows a slight improvement for the current year over the extreme depression of 1900. Mr. Louis Windmuller, of New York, an accepted authority on wool, in his annual report to the New York chamber of commerce states that sheep raisers do not derive from the high tariff the benefit they expected. There was imported last year foreign fine wool to the amount of 42,000,000 pounds, costing \$8,000,000, and paying about \$4,750,000 in duties. On this subject Mr. Windmuller says:

"No other industrial nation places a tax on raw wool. If we gradually were to lower and finally to abolish, the high duties on foreign wool, our manufacturers would learn how to compete with England and German makers of woolen goods in many markets of the world. Should the demand for their fabrics be thus increased by foreign customers, it would enable American makers to use of domestic fleece a greater quantity of all varieties that are raised, creating a more continuous inquiry and preventing that accumulation of stock that so often becomes embarrassing and generally leads to a depression of the value."

There is to be a new uniform for the American army, based on principles of common sense. The changes in the dress uniform are unimportant, but the clothing recommended for service is radically different from that now used. Khaki, in its natural color, is easily seen, as are blue and gray of the sort worn by the cadets at West Point. The color adopted is "olive drab," which is neither brown nor green, but a little of both. It is hard to distinguish in any field of operation, no matter what the character of the vegetation may be. Uniforms should be made for service and not for show. The "red coat" has given way to khaki in the English service, and now khaki has been found too light to escape detection. It seems as if it were not worth while to continue dress uniforms. They merely add to the cost of equipment and serve only to shock the eye of every man who has seen any but our own uniforms.

When Thomas F. Bayard, a democrat, was minister to England there was a mighty hullabaloo in this country over one of his utterances which was taken to be un-American. Joseph Choate, republican, advises against Fourth of July celebrations in England "because of the unpleasant significances of the event they commemorate" and no republican raises his voice in criticism. We thus see that circumstances alter cases.

The new Ameer of Afghanistan has declared against the admission of missionaries to his country.

E. W. GROVE.

This name must appear on every box of genuine Laxative Bromo Quinine Tablets, the remedy that cures a cold in one day, 25 cents.

FALSEHOODS

Are the American-Tribune's Assaults on Democratic Members of the Council.

If Sunday Ordinance is Not Enforced It Is No Fault of the Council, Directly or Indirectly.

The Police Have Carried Out Every Closing Order That Has Been Issued by the Mayor.

A Paper at Its Old Tricks of Traducing Our Best Citizens and Discrediting the Fair Name of Our Popular City When Strangers are Here Attending O. N. G. Encampment.

The most outrageous and malicious assault ever made upon good and respectable citizens of Newark in all the city's history, was that made by the American-Tribune upon the Democratic members of the City Council last evening.

The A.-T. makes a pretended howl about saloons being open on Sunday, and lays the blame for it all on the Democratic members of the City Council. It may be a question whether the real object of the A.-T. is to traduce the Democratic members of the Council or whether it is hitting at the Mayor or over the Councilmen's shoulders. But in either event the statements of that paper are wholly and absolutely false.

It is not true that the Democratic members of the Council are in any way responsible, either directly or indirectly, for the failure of Mayor Forry to carry out the American-Tribune's professed policy of closing saloons on Sunday. The A.-T.'s assertions that any of the Councilmen are responsible or at fault in that regard are utterly false, and that paper knows they are false.

It is not true that the police force has refused to carry out any orders from the Mayor to close saloons on Sunday. On the contrary the police have carried out every order that the Mayor has issued, and the A.-T.'s assertion to the contrary is devoid of truth. The Mayor has never ordered that an arrest be made for a violation of the Sunday closing ordinance.

If any order of the Mayor to the police is neglected or refused to be carried out by a single policeman, the Mayor has the right to suspend him and prefer charges against him to the Council, and this the Mayor has not done. This fact of itself clinches the falsity of the A.-T.'s statements.

Such an unjust assault as that upon the best men of our city is practically an assault upon the city itself. The paper that resorts to such shameful methods is a public enemy of the city in which it is printed and circulated. Such an asinine policy is in fact an effort to discredit our thriving, fair little city's popularity and can have no other effect than to operate against its growth and prosperity, and against the interest of its property owners. But, thanks to that paper's impotency, its course cannot tarnish Newark's fair name, either at home or abroad, and it is therefore powerless to retard the city's phenomenal growth and industrial progress.

As for the American-Tribune's policy it is extremely doubtful whether a single member of the Council, Democrat or Republican, sustains that paper. That all the Republican members, as well as the Democrats, condemned its contemptible course on the water works question is a notorious fact. There are extreme doubts, too, as to whether the Mayor himself endorses the course of that paper in its pretended anti-saloon raid. The probability is that he has too much manhood to relish being the tool of the A.-T. on that or any other question. The Mayor is credited with announcing as his policy that those who want violators of the closing ordinance punished must file

SOCIETY GIRL AS FOOTMAN.

Fashionable Young Woman Creates a Sensation at Newport.

A jolly party of young people of fashion who had been playing ping-pong and lawn and court tennis started at noon the other day for a drive on Ocean avenue. In Newport, says the New York World. One of the pretty girls of the party, gowned in white and with short sleeves, sprang into the footman's seat of a trap and, folding her arms, took the correct posture for that functionary and continued it during the drive.

The sight of a prominent society girl acting as footman was a spectacle never before witnessed, and it created an amusing sensation and probably introduced a new fad at that resort.

affidavits so that warrants can be issued. If this is his policy it simply proves that he is practically following the same line as that finally adopted and actually pursued by every Mayor, both Republican and Democrat, that the city has had for the past 25 years.

There is neither consistency nor sincerity in the A.-T.'s talk about saloon closing on Sunday. That sheet made a pretended anti-saloon crusade some three or four months before the last spring election and kept it up for weeks. But when the Republican nomination for Mayor was made the A.-T. practically dropped the matter, and its big double column articles on that question under scare headlines suddenly disappeared.

Whether this change of front on the part of that paper was due to the fact that the Republican candidate for Mayor refused to commit himself in regard to saloon closing, or whether it was because the A.-T. about that time became the enemy of the people on the water works question, the public may judge.

It is sufficient for the public judgment on this matter that the American-Tribune suddenly commenced to devote all its space to articles in behalf of the water works company in opposition to city ownership and the big double-column anti-saloon articles ceased to appear daily as they had done for weeks before that time.

It then had to give up all its space to slanderous articles abusing the members of the Council because they were on the side of the people in favor of city ownership of water works. But the people put their seal of condemnation on the course of that sheet by voting to sustain the Council's action on this question by a three-fourths majority of all the votes cast. The result is that the A.-T. has been "sore" on the Council ever since and takes every opportunity to misrepresent it regardless of truth, fairness or justice.

But why has the American-Tribune took the present occasion to make this infamously false and misleading assault upon the Council? Is it not a scheme to deprive Newark of home rule?

It is well known that a project is on foot to rush a new municipal code through the coming extra session of the Legislature with provision for the appointment of police boards for cities by the Governor, and thus deprive the Council of all power and the people themselves of all control of this important feature of the city government. It is simply a step in the direction of taking all power out of the hands of the people and depriving them of self-government. Then is not this assault upon the Council at this particular time made on account of the Governor's presence in our city, attending the camp of the Ohio National Guard?

It is certainly a shameful proceeding to select such a time as this to assail our city—the acceptable home of every Newark citizen—and make this the occasion to discredit its fair name and popularity with the numerous strangers that are attending the O. N. G. encampment.

A New Type of Steamer.

A working model of a new and novel type of steamship, the invention of Herr J. Brohan, an engineer of Hamburg, has been on view in the Hall of Civil Engineers, Rue Blanche, Paris, says the Scientific American. The principal feature of this craft is that it is equipped with four propellers, one forward, another just before the rudder and two at the stern. The vessel is flat bottomed, but there is a short keel in the center and two false keels forward to keep the hull off the bottom in case of grounding and between which the forward screw revolves. The inventor estimates that with a steamer 300 feet long built according to his design he could make the passage from Havre to New York in four days.

OHIO'S GREAT SALT BED

An Opportunity for Investors, Perfectly Safe, That Will Afford Larger Dividends Than Any Other Similar Enterprise in the State.

Unknown to every one except those interested in the business, there exists in northern Ohio one of the largest beds of pure salt in the United States. Professor Claypole, D. S. C. T. R. S., after having been engaged in geological research in all parts of the known world, said, "It is the largest and best salt bed in the world." After the professor's return from his researches, he located in Boston and later came to Akron, Ohio, as a professor in Bucknell College. It was while he was a professor at Bucknell College he made daily trips to the great salt well now owned by the Inter-State Oil Co. His full and frequent investigation of the many salt wells in and around Akron, led him to say, that this was the best and the largest salt bed in the world.

There are now twenty-five wells within a territory eighteen miles in length and about ten miles in width in Summit county, penetrating this great salt bed, and which have been put down at a cost of over \$130,000.00. Only a few of the readers of our great daily papers know there are now four great plants producing salt and its other products from this great salt bed. Three of these immense plants are producing the best salt in the United States. One is located at Wadsworth, one at Rittman and on at Halo, all in the vicinity of Akron, Ohio. The fourth plant is a chemical company and manufactures soda-ash and caustic from the salt bed. This soda ash plant at Barborton is the largest of its kind in the United States. This great salt bed is less than four hours ride from this city.

This great salt bed if it were upon the top of the ground, would form a stupendous crystal mountain nearly three times as high as the top of the Court House in our city, and it would be as white as snow, transparent, and almost colorless in its purity, and would reflect the rays of the sun at that no eye could steadfastly behold it without injury.

There is every reason to believe that owing to its size, and purity, the great salt bed will soon become the center of the production of salt in Ohio, and this will become one of the greatest of the salt producing states. A few enterprising citizens of this state have organized a powerful company for the production of salt on a larger scale than has ever been attempted heretofore.

This company has now among its stockholders some of the best known and most prominent men in the state and is destined to become a permanent and large dividend paying corporation. The sister industries of iron and steel, clays, and coal, have made millions for the large investors and doubled and re-doubled the money invested by the smaller stockholders, so that in an ordinary lifetime many of them have become wealthy.

All of the other valuable minerals, gold, silver, copper, etc., have to pass through an expensive refining and smelting process before they become commercially useful and profitable. But the salt from our vast bed is 98 per cent pure and needs only to be

Economy is a Great Revenue.

Don't be fooled by any one charging you more than you can buy for from me; I'll meet the lowest price and loan you the cans. My increasing business proves that my goods are satisfactory. Need More Help.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at Hall's drug store.

San Francisco has one saloon for every 22 adult male inhabitants.

run over sieves of varying meshes.

This company which has been formed for the purpose of operating this immense salt bed has already a large acreage of this salt territory which is practically inexhaustible. The reader may get a more exact comprehension of this fact if it be stated mathematically in plain figures.

The salt strata under the territory controlled by this company is 377 feet thick. Thus one acre would contain 2,257,378 barrels of salt. It would take three years to exhaust one acre with a plant producing 2,000 barrels of salt per day, and therefore to exhaust the 5,000 acres controlled by this company would take about 15,000 years.

The "salt of the earth" is one of its preservatives, and no other product not even bread, which is "the staff of life" is so universally used by both men and animals as salt.

This is indeed a rare opportunity for people who are seeking a better investment for their money, for it is infinitely safer and more profitable than most other manufacturing interests, building and loan, banks or real estate. Here is a great natural industry producing at small cost, from salt that is 98.9 per cent commercially pure, a quality of salt that is unsurpassed by any other salt plant in the world.

Other plants in this same field have paid dividends as high as thirty per cent to their stockholders, and there is no known reason why this company cannot pay as large or even larger dividends when it is once in operation. A dividend of 20 per cent will equal the capital invested in a period of about three years and four months, while in any business where only 5 per cent dividends are paid—and this is usually considered a very fair profit—it will take over sixteen years before the profits will equal the original investment.

This company expects to protect every dollar of its capital, whether invested with it in small or large sums, and establish absolute and unquestionable confidence on the part of its stockholders in its business integrity and the care which it will give to all of their interests.

This company will make its first care the interests of all of its stockholders, paying at all times the largest dividends that the business is capable of earning.

A business of modern proportions—a business that is a safe investment and which can and will pay good dividends, a business located right here at home in Ohio, will offer a chance to the citizens of this community to share in its capital, and reap a portion of the harvest of dividends which will flow from the products of this company.

Some of Newark's citizens have already purchased stock in this company and at their request the citizens of Newark will be given an opportunity to purchase a limited amount of the capital stock.

For further information inquire of: J. M. Ickes, F. L. Beggs, of Styron & Beggs, or Rev. Henry Fulton.

An Ordinance

Accepting Brown and Hughes (1) First Addition to the City of Newark, Ohio.

Be it ordained by the City Council of the city of Newark, Ohio: Sec. 1. That the plat of Brown and Hughes first addition to the city of Newark, Ohio, be and the same is hereby accepted and the streets and alleys thereon designated are hereby accepted as public streets and alleys of said city.

Sec. 2. That the Clerk be required to cause said plat to be recorded in the office of the County Recorder, and filed in the Clerk's office.

Sec. 3. That this ordinance be in force and effect from and after its passage and legal publication.

That said Brown and Hughes pay the costs of publication.

Passed July 7, 1902.

F. T. MAURATH, City Clerk.

HARRY W. ROSSEL, President.

Doctors Extend Their Time.

Owing to the Large Number Who Have Been Unable to See the British Doctors, These Eminent Gentlemen Have Extended Their Time for Giving Their Services Free for Three Months to All Who Call Upon Them Before August 1st.

Owing to the large number of invalids who have called upon the British Doctors at Flat 2, AVALON FLATS, first floor, west end entrance, 100 W. Main street, and who have been unable to see them, these eminent gentlemen have, by request, consented to continue giving their services entirely free for three months (medicines excepted) to all invalids who call upon them for treatment.

BETWEEN NOW AND AUG. 1st. These services consist not only of consultation, examination and advice, but also of minor surgical operations. The object in pursuing this course is to become rapidly and personally acquainted with the sick and afflicted, and under no conditions will any charge whatever be made for any services rendered for three months, to all who call before Aug. 1st.

The doctors treat all forms of disease and deformities and guarantee a cure in every case they undertake. At the first interview a thorough examination is made and, if incurable, you are frankly and kindly told so, also advised against spending your money for useless treatment.

Male and female weakness, catarrh, and catarrhal deafness, also varicose rupture, goitre, cancer, the opium habit, and all diseases of the return are positively cured by their treatment.

The chief associate surgeon of the Institute is in personal charge.

Cases requiring it are diagnosed by the X-Ray method.

Hours: 9 to 8, Sundays 10 to 1.

DR. C. L. WYETH,

DENTIST.

DEPART.

SECOND REGIMENT O. N. G.

One of the State's Crack Military Organizations Now In Camp With the First Brigade---Col. Ream Commander---Sketch of the Regiment and the Staff.

The Second regiment of Infantry, O. N. G., formerly the Eleventh regiment, was formed into a regiment in the year 1876 under Special Orders dated July 6, 1876. There were seven companies in the original regiment as follows: Columbus Grove Cadets, Columbus Grove; Findlay Guards, Findlay; Kirby Light Guards, Upper Sandusky; Melancthon Light Guards, Lima; Van Wert Captors, Van Wert; Westminster Guards, Westminster; Butler Light Guards, Mendon; Wapakoneta Light Guards, Wapakoneta. The regiment

posed of 11 companies and was mustered into the United States service on May 10th, 1898.

The boys did not see any foreign service, and the time was spent in the different camps of rendezvous and it was mustered out on February 10th, 1899, at Macon, Ga.

The Colonel, J. I. Ream, whose portrait appears herewith, is one of the leading citizens of Lima, Ohio. Colonel Ream is one of the foremost officers in the Ohio National Guard. He is one of the most popular men in the Guard

I. Ream, Comdg. Rgt. Lima; Lieut. Col. John G. Hoegner, Wapakoneta; Maj. J. Guy Deming, Ada; Maj. B. L. Wallace, Carey; Capt. John M. Bingham, Adjt., Regt. Treas., Lima; Maj. Jonathan B. Vail, Surg., Lima; Capt. Edward M. Phelps, Asst. Surg.; St. Marys; Capt. Burke L. Johnson, Asst. Surg., Kenton; Capt. Robert E. Swigart, Asst. Surg., Tiffin; Capt. Ernest J. Howe, Q. M., Lima; Capt. Jas. Ray Stillings, Coms., Kenton; 2d Lieut. Ray R. Dobbins, Batt. Adjt., Ada; 2d Lieut. Geo. A. Callam, Batt.

COLONEL J. I. REAM, in Command of Second Regiment, O. N. G.

thus formed was called the Eleventh. The first election was held August 22, 1877 and Samuel Huber of Findlay was elected and commissioned colonel.

The regiment was disbanded and re-organized as the Second regiment of Infantry in 1883 and comprised seven companies. When the war with Spain was declared the regiment was com-

and his military knowledge ranks him as an authority.

Colonel Ream's associates in the Second are men of splendid military bearing and gentlemen of culture and refinement.

The headquarters of the Second Infantry are at Lima, and the roster is as follows: Field and Staff---Col. Jas.

Adj., Kenton; 2d Lieut. Frank L. Snyder, Batt. Adjt., Wapakoneta; Chaplain Robert J. Thompson, Lima; The Second regiment is made up of companies from Findlay, Carey, Lima, Tiffin, Spencerville, Ada, Kenton, Wapakoneta and Ottawa. The captains and lieutenants in each company were named in yesterday's Advocate.

With great respect believe me sincerely,
H. C. CORBIN.
Adjutant General Major General U. S. A.

Brigadier General George R. Gyger, Adjutant General, Columbus, O.
Col. H. M. Taylor, assistant adjutant general, and Colonel Hopkins, of the adjutant general's office left Monday for Newark, to be present at the brigade camp.
Governor Nash took a trunk with

War and bears an excellent record in the infantry, artillery, cavalry and marine corps of the United States Army. Sergeant Burns was on a three years cruise on the United States Cruiser Ossipee and visited Tien Tsin during that time.

CAMP NOTES.

Cadet Charles Donovan, son of Colonel George B. Donovan, who is attending the United States Military

EDWARD WELCH, Captain Sixth Infantry, O. N. G., Commanding Co. I.

him, indicating his intention to stay in camp.
SERGEANT JOS. BURNS.
A special order No. 290 dated at Columbus, reads as follows:
"Post Quartermaster Sergeant Jos. F. Burns, O. N. G., (recently appointed) will report by letter to the commanding general of the Division for duty, taking station at Camp William McKinley, until further orders."
Sergeant Joseph Burns whom the above refers to is a veteran of the Civil

War and bears an excellent record in the infantry, artillery, cavalry and marine corps of the United States Army. Sergeant Burns was on a three years cruise on the United States Cruiser Ossipee and visited Tien Tsin during that time.
Colonel Donovan has with him Cornelio Varga, a native of Guayama, Porto Rico, who came home with the Fourth O. V. I. when they returned from the Island. The young man, through the influence of Colonel Donovan is attending the Institution for the Soldiers' and Sailors' Orphans at Xenia, O. The young man is an interesting talker and always has a

(Continued on page 6.)

ROOSEVELT'S NOMINATION

PREDICTED BY SECRETARY OF THE NAVY MOODY

First Cabinet Officer to speak Out---Doesn't Believe Anti Legislation is Expected.

Washington, July 15.--"President Roosevelt will be nominated for the presidency in 1904 just as certain as I am sitting in this chair. I have not the slightest doubt of it, and indeed it is no secret that I am confident in this matter. I have said so before, but recent history makes my conviction stronger than ever."

This is what Secretary of the Navy Wm. H. Moody said yesterday when asked what he thought of the chances of the President succeeding himself.

Mr. Moody spoke with an air of great positiveness. He is the first cabinet officer to declare himself on the subject of Mr. Roosevelt's prospects of receiving the next Republican nomination for the presidency. He is a close personal as well as political friend of the President, and reflects to a great degree the President's convictions on public as well as closely personal beliefs and questions.

"Mr. Roosevelt is strong with the people," said Mr. Moody, "and nothing can prevent his nomination unless something of a character unforeseen at this time arises."

"The people trust him and believe in him. This grows out of the fact that he is thoroughly honest, and is wearing no man's collar. He carries his own government under his own hat."

"I believe the people are impressed by his record and his character. There is nothing to defeat him with the people and the people will have their way and he will again be President at the end of his present term in the White House."

While Mr. Moody was a member of the House of Representatives from Massachusetts he made an especial study of the question of trusts. In the light of the President's recent utterances upon this subject and the report that a bill is to be prepared a his instance for introduction in the House next winter, Mr. Moody was asked for his views on this subject. Mr. Moody talked rather diffidently. He said however:

"The trust question is an extraordinary development in our industrial career and it must be considered with the utmost care. But the fact is Congress has no power over the subject except in the matter of affecting our interstate commerce. Congress cannot regulate corporations and consolidations which are not engaged in interstate commerce and Congress is rigidly limited in the exercise of its authority in legislation."

"There appears to be only one way of dealing directly in the premises and that involves the method of the adjustment of the tariff on the products of the trusts. The only embarrassment in connection with dealing by that method is the fact that it may affect others than those at whom it is directed. It involves the question of dealing uniformly with all those engaged in handling the specific product aimed at, and this method of treating the subject is not free from difficulty."

In all Mr. Moody's talk on the question of the trusts he did not indicate that any serious anti-trust campaign was contemplated. The whole tenor of his remarks was to the effect that no anti-trust legislation was expected by the people or seriously thought of by the Republican leaders.

ABOUT PEOPLE

Isaac Bryant of Columbus, was in the city for a short time today.

Dr. T. E. Jones made a professional trip to Kinkersville Tuesday.

Henry Embury a well known molder of this city, left today for Indianapolis, Ind., today.

John Ankele and son Alfred left today for St. Louis, Mo., and Clinton, Mo., where they will visit relatives for several weeks.

IF A MAN LIE TO YOU.

And say some other salve, ointment, lotion, oil or alleged healer is as good as Bucklan's Arnica Salve, tell him thirty years of marvelous cures of Piles, Burns, Boils, Corns, Felons, Ulcers, Cuts, Scalds, Bruises and Skin Eruptions prove it's the best and cheapest. 25c at Hall's drug store. 7

PEOPLE OF THE DAY

The King's Surgeon.
Among the famous surgeons of England is Sir Frederick Treves. It was he who performed the operation on King Edward, though associated with him were several of the most eminent physicians and surgeons of Great Britain. Sir Frederick Treves is a fellow

SIR FREDERICK TREVES.

of the Royal College of Surgeons and for many years has been a distinguished operator and surgeon in London. He was one of the many numerous medical men who went to South Africa during the progress of the recent war for the purpose of enhancing his clinical experience. For more than twenty years he has been recognized as an authority on abdominal operations.

Buffalo Bill Off Duty.

Among the tens of thousands of persons who saw Buffalo Bill on horse back at the wild west show less than a hundred probably know what he looks like out of the showman's arena, says the Philadelphia Press. William F. Cody is a very tall man, about 6 feet 3 inches, broad of shoulder, deep of chest and lithe of limb. He has a complexion like a healthy schoolgirl, eyes keen as a hawk's and a tongue like a baby's. Except for his whitening hair and the faintest suspicion of crow's feet around the eyelids no one would imagine that he is fifty seven years old.

In dress Buffalo Bill is most fastidious. The close fitting buckskin riding breeches and embroidered hunting shirt that he wears in the ring are indicative of his carelessness in general attire. He wears usually a black cutaway coat of rough texture cloth, a double breasted fancy waistcoat of modest pattern and trousers with a thin white stripe that add to the effectiveness of his height. He is fond of jewels and has enough of them in the shape of gifts from potentates in lands he has visited to make a creditable showing. He is seldom seen without a magnificent scarfpin presented to him by the Grand Duke Alexis after a hunting trip in the northwest. The only indication of the prairie scout that appears in his everyday dress is the slouch hat, with an unusually broad brim.

Nominated For Governor.

At the recent state convention of the Democratic party of Pennsylvania Governor Robert E. Pattison was nominated for governor. Mr. Pattison has twice been elected governor of Pennsylvania, in 1881 and 1890, and enjoys the distinction of being the only Democrat elected to that office since the war of the rebellion.

Mr. Pattison was born in Maryland and is fifty-one years of age. He was

ROBERT E. PATTISON.

educated in Philadelphia, which city has been his home since boyhood. He studied law and was admitted to the bar in 1872. He entered politics soon after taking up the practice of law and was elected city comptroller of Philadelphia in 1877 and was re-elected in 1880, but resigned to become governor, to which position he was elected, as stated above, in 1881, at the age of thirty-one.

An Revolt of the Cambons.

Jules Cambon, the French ambassador, with his wife, sailed the other day from New York for France. The ambassador commented on the good feeling existing between the two republics. Mme. Cambon, who is a comparative stranger in America, said, "What struck me most was the independent ways of the American women."

Colonel Gilmore's Promotion.

Colonel Quincy O. M. Gilmore has been appointed by Governor Murphy of New Jersey brigadier general, succeeding the late General Cooper in command of the Second brigade of the New Jersey national guard. Colonel Gilmore assumes command at the Sea Girt encampment.

JAS. BOSS CASE

WONT BEND OR DENT

WATCH PROTECTION

The Jas. Boss Stiffened Gold Watch Cases are an improvement on solid gold cases. They are stronger and won't bend or dent. Made of two layers of gold, with a layer of stiffening metal between, welded together into one solid sheet. The outside layer contains more gold than can be worn off a case in 25 years, the time for which a Jas. Boss Case is guaranteed.

Jas. Boss Stiffened Gold Watch Cases

are recognized as the standard by all jewelers. They are identical with solid gold cases in appearance and size, but much lower in price. Don't accept any case said to be "just as good" as the low. Look for the Keystone trademark. Send for booklet.

The Keystone Watch Case Company, Philadelphia.

Martha J. Stephens by W. H. Anderson, Jr., sheriff, to Robert J. Richter, lot in the village of Linnville and 2 1-2 acres in Franklin township, \$101.

PLAN OF NEW WARSHIPS.

Will Have Unusually Thick Armor and Strong Batteries.

The navy department at Washington has its plans practically complete for the four big warships just authorized by the new law and which will bear the names of Louisiana, Connecticut, Tennessee and Washington. The distinctive features of the new ships, says the New York Press, are the strength and the arrangement of their batteries and greater thickness in armor.

The battleships are to have a displacement of 16,000 tons and will be built for a speed of eighteen knots. Their batteries will consist of four 12 inch guns, eight 8 inch guns, twelve 7 inch and twenty 3 inch guns and a large number of smaller weapons scattered over the ship.

The armored cruisers are to have a displacement of 14,000 tons and a speed of twenty-two knots. Their batteries will consist of four 10 inch guns, sixteen 6 inch and twenty-two 3 inch guns and a large number of smaller ones.

TWO MEN KILLED

Third Badly Hurt in Collision at Outville This County.

The Dead Are Oren Ditter and J. H. Little, Both of Newark--- Engine Stripped---Caboose Shattered---Two Cars Wrecked---A Rear End Collision.

It is almost trite to repeat in a city like Newark, where so many men spend a good part of their lives on the railroad, and are victims of terrible accidents, that many human lives depend upon each employee doing his whole duty, at every moment of the time that he is out on the road. Not only is his own life sometimes at stake, but more often the lives of fellow employees are imperiled and sacrificed by the failure of one man in some small and seemingly unimportant detail of his arduous service.

Never was this fact brought out more forcibly and with more heart-rending results than it was Monday night about 11:24 o'clock just east of Kirkersville station, twelve miles west of Newark.

A man, whose duty it was to flag any train approaching too near his own, fell asleep, it is said, or at least, he was for the moment derelict in his duty, and the approaching train, all unaware of danger, until too late, crashed into the rear end of his train, two men met fearful deaths, and he himself, was so badly injured that death may come to him.

An extra west bound B. & O. freight train left Newark about 10 o'clock with Conductor Chas. Reel in charge, Engineer J. A. Little at the throttle.

Some time before an extra west bound Pan Handle had pulled through Newark and should have been well on its way to Columbus, when the B. & O. arrived at Kerkersville.

All trains west bound are now being run as extras, for some reason best known to the companies.

At Kerkersville the Pan Handle came to a stop and the rear brakeman should have gone back a safe distance and flagged any train approaching from the east. This he failed to do and the accident resulted.

The B. & O. train came on with what was to its crew, a clear track. Suddenly the caboose deck lights flashed out of the darkness, and in an instant there was a crash of shivering timbers, a hissing of steam from broken and twisted conduits, several groans from two men pined in the engine cab, and then a terrible realization to those present that an awful accident had occurred.

J. A. Little the engineer, and Oren Ditter, head brakeman, who was riding in the engine, were caught and both were scalded in a terrible manner, both men being dead when taken out. Ditter died from inhalation of steam, his mouth being held over a fire.

Little's death was caused by scalds and burns, and bleeding from a crushed left leg.

Fireman Frank Smallwood who was

making his second trip, jumped and escaped serious injury, although his back was severely strained.

Word was immediately sent to Newark to Undertakers Bowers and Bradley, and George F. Bowers went to Kerkersville and brought the remains of Little and Ditter to Newark. They were taken to Bowers & Bradley's undertaking rooms and prepared for burial.

The bodies of both Ditter and Little were scalded in a terrible manner, especially the former. Not a square inch of Ditter's body remained that was not literally cooked off the bones. In attempting to sponge the face the skin and flesh came off, following the application of the sponge in the hands of the undertaker.

Little lived about 10 minutes, and Ditter about 25 minutes after the accident happened, and their remains were brought to Newark on B. & O. 106 as soon as the track could be cleared, which was blocked for several hours.

The accident occurred as follows according to the most authentic sources. The Pan Handle had stopped on the main track for some reason, to take a siding. A flagman was sent back, and the train pulled up a little. McGlade the flagman, ran and got on the caboose, sat down and went to sleep. At this point the lights of the caboose could have been seen for a long distance, but at the time an east bound train was passing the Pan Handle and the smoke from the locomotive descending on the west bound track, obscured the lights from the view of those on the engine until too late to avert the accident.

J. A. Little, the dead engineer, was 38 years old and lived with his family consisting of a wife and two children aged 3 years and 6 months respectively, at 405 Andover street, corner of Penney avenue.

He was a member of Newark Lodge No. 13. K. of P. had taken two degrees in Newark Lodge 97. F. & A. M. and was a member of Division 36, B. of L. E. His father and mother, Mr. and Mrs. David Little live in Muskrum county, near Dresden. Three brothers also survive, all living in

CAN'T EAT!

Why? The stomach is weak, the appetite is gone and the bowels are constipated. Nothing will do you as much good as a box of Hostetter's Stomach Bitters before each meal. It will strengthen the stomach, restore the appetite, prevent constipation and positively cure Indigestion, Dyspepsia, Biliousness and Malaria. Fever and Ague. Try it.

HOSTETTER'S STOMACH BITTERS

Newark, Emmett and Almus being B. & O. firemen, and Joseph a B. & O. engineer. The latter was out on the road at the time of the accident, and when he got to Bellaire was told of it. He took B. & O. No. 7 and came right back to Newark.

Oren Ditter lives at 263 Buckingham street. He leaves a wife and one small child, his wife formerly being Miss Irene Jones, daughter of Mr. and Mrs. Evan Jones, who was a bookkeeper for Miller & Howell. His funeral will take place from the late home at 10 o'clock Thursday morning. Interment in Cedar Hill cemetery.

A special to the Advocate from Outville says that the engine was stripped and turned on its side, while the caboose was reduced to kindling wood. Two coal cars were wrecked. Engineer Little lived 10 minutes after the accident. Joseph McGlade, the flagman, had one hand hurt and his back injured. He was taken to Columbus.

BASE BALL ..AND.. OTHER SPORTS.

The base ball games Monday resulted as follows:

National League.

At Pittsburgh:	R H E
Pittsburgh	4 11 0
Boston	1 7 1
Batteries, Doheny and Zimmer, Williams and Moran.	

At Chicago:

R H E

Batteries, Carrick and Clark, McGinnity, Shields and Bresnahan.	

With a view to facilitating the delivery of mails the Swedish postal authorities suggest that all school children in the country be instructed in the correct method of directing letters.

Formosa Cuts the Pigtail.

The people of Formosa are beginning to cut their hair, says the Japan Weekly Mail. That sounds like an idle announcement, but it means a great deal. It means final abandonment of the life of an outlaw. From many districts news of the removal of the pigtail is announced, and the general belief is that the change has been brought about by the extensive operations undertaken against the rebels. The people of Formosa have been wearing the pigtail for 300 years.

Trades Council meeting tonight

CALLED MEETING

Of the New Democratic County Central Committee to be held on Saturday, July 19.

There will be a meeting of the new Democratic County Central Committee in the Convention Room of the Court House, on Saturday, July 19, at 10 o'clock a. m. for the purpose of organizing, and for the transacting of any further business that may come before the meeting.

A. J. CRILLY, Chairman.
F. B. DUDGEON, Secretary.

Following are the names of the new Democratic Central Committee:

Central Committee
Bennington—Derilus Hatch.
Bowling Green—Wm. Courson.
Burlington—H. W. Maddox.
Eden—Wm. H. Pound.
Etna—S. C. Hager.
Fallsbury—G. W. Chapin.
Franklin—S. J. Parr.
Granville Twp.—Fred Williams.
Granville Village—B. I. Jones.
Hanover—R. L. Somerville.
Harrison—Tom Randall.
Hartford—H. H. Perfect.
Hopewell—F. M. Hursey.
Jersey—Henry Clouse.
Liberty—Price Glynn.
Licking—E. V. Beard.
Lima, E. P.—Eugene Moore.
Lima, W. P.—W. J. Tharp.
Madison—F. S. Baker.
Mary Ann—S. T. Coon.
McKean—P. H. Barber.
Monroe—Chas. Sanford.
Newark—R. W. Howard.
Newton—E. F. Dush.
Perry—R. H. Nichols.
St. Albans—H. M. Whitehead.
Union, N. P.—T. F. Hillbrant.
Union, S. P.—W. A. Sawyer.
Washington—J. D. Tewell.
First ward—Wm. Bash.
Second ward—Thomas Bukey.
Third ward, N. P.—Norris H. Browne.
Third ward, S. P.—D. F. Gormley.
Fourth ward, N. P.—W. D. Benner.
Fourth ward, S. P.—J. W. Honenberger.
Fifth ward, N. P.—James Cody.
Fifth ward, S. P.—Melchor Weller.
Sixth ward—John Baird.
Seventh ward—A. A. Gard.
Eighth ward—A. J. Crilly.

THE SICK.

Miss Mary Neal is confined to her home corner Fifth and Church streets with scarlet fever.

Miss Louise Beecher is ill with malaria at her home north of Newark.

Miss Kate Gallagher, who has been in Phoenix, Arizona, for the past eight months, has returned home much improved in health.

David Evans is confined to his home with sickness.

Go to the free band concert at the Camp Grounds. Cars every ten minutes from the square commencing at 4:30 p. m. Fare 5 cents. Last car leaves camp ground at 10:15 p. m. From 9 a. m. to 4:30 p. m. cars run every half hour.

LICKING TOWNSHIP.

The threshing season has begun in this section.

Miss Ruth Mossman of Lancaster is visiting her grandparents and other relatives here.

Rev. Mr. Brown filled the Presbyterian pulpit Sunday forenoon.

A. H. Marple has taken up the grocery business in Newark.

Cephas Harter was in Newark Saturday evening.

Mrs. Bertha Larson of Newark, spent Sunday with friends here.

Mr. Homer Fulk is convalescing after a long illness.

Miss Annie Courson of Coshocton is visiting friends and relatives here.

Erie Fulk and sister Aurelia attended church at Jacksontown Sunday evening.

Miss Minnie Gray was in Newark last Saturday.

Rev. Mr. Hoover of Concord preached two very interesting sermons at the U. B. church Sunday forenoon and evening.

Farmers are busy making hay.

A local option election will be held in this township on August 2.

Mr. Frank Fulk and wife entertained a number of their friends last Sunday.

Miss Florence Harter of Newark is visiting Hog Run friends.

NEW LODGE

Catholic Order of Foresters to be instituted at Somerset—Newark to Take Part.

On Sunday, July 27, a big delegation of the Catholic Order of Foresters will go to Somerset to attend the institution of Somerset court.

The new court will have a charter membership of 50 and was organized by J. J. Whitney a member of St. Dominic's court No. 555, of Columbus. The town is to be decorated with the flag of the order and other decorations. A musical program has been arranged for the entertainment of the visitors from Newark and Columbus whether they are members or not. This will be furnished from the recent graduates of Somerset Ladies' seminary and selected male voices from Columbus.

The state court officers will be present and a number of good speakers will also attend, there will be many of the clergy from surrounding towns present, special invitations having been sent to them. The members of the order attending will be banqueted by the members of the new court.

The state officers will be assisted by members of the order from Newark, the deputy high chief rangers of Columbus and other members of the order.

The Somerset band will escort the visiting Foresters to church where they will attend mass.

W C T U NOTES.

At the meeting held on July 8, the Scripture lesson was read from the 19 Psalm, "Let the words of My mouth and the meditation of My heart be acceptable in Thy sight, O Lord, my strength, and my redeemer." This was followed by a reading on "The result of influence in after years." On Wednesday of last week Mrs. Sisson, the State Superintendent, and Mrs. Wright, the local superintendent of rescue work, accompanied a young girl to Columbus, who desired to enter the Chittenden Home with the determination of leading a better life.

Work has been commenced by the Newark Union to procure a bed and later send a box for the benefit of girls of this city who may enter this widely known "Rescue Home." On next Tuesday the devotional exercises will be led by Mrs. Coon, followed by a responsive reading on "Unfermented Wine," led by Mrs. Ashley.

To Rebuild Tower.

Venice, July 15.—Venice alone has already subscribed \$193,000 for the immediate reconstruction of St. Mark's cathedral which collapsed yesterday. It is believed that the government will give another million which, added to the contributions for the purpose throughout Italy, will insure the reconstruction of the edifice in all its glory.

DON'T FAIL TO TRY THIS.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run-down systems. Electric Bitters positively cures Kidney and Liver troubles, Stomach Disorders, Nervousness, Sleeplessness, Rheumatism, Neuralgia, and expels Malaria. Satisfaction guaranteed by Hall's drug store. Only 50c

Over a thousand bunches of grapes have appeared on a vine now growing near Boren, in Tyrol.

If You Are Not Satisfied

WITH WHAT YOU HAVE, TELL
CLIFF L. STURGEON

About it and he will help you to get what suits you. LICKING COUNTY FARMS are perhaps cheaper now than they will ever be again, and I have a large list of good farms that can be had on terms to suit purchaser. Some can be had in exchange for Merchandise or other property. Desirable lots in both Newark and Columbus for sale or exchange.

IF YOU WANT TO EXCHANGE

For Columbus property meet me at No. 7 Wesley Block, Columbus, Thursday of each week. If not in see my office partner, Mr. Stenton.

GROCERIES

My stock is larger and more complete and I am better prepared to wait on you than ever before.

If you want good goods and desire to save money, give me a few weeks trial. I KNOW I CAN SAVE YOU MONEY.

CLIFF L. STURGEON
16 West Main Street.

NEW MOTOR

FOR ELECTRIC CARS TO DO AWAY WITH TROLLEYS

Magnets Imbedded Between Rails of Track Pulled Cars in a Test Made At Chicago.

Chicago, July 15.—Small electro-magnets imbedded between the rails of the track, were used to pull a street railway car in Chicago. Unlike those in a trolley car the magnets did not work directly in turning the wheels. They did not even touch the iron suspended under the car or any part of it. They acted as controlled teasers.

All this took place with a ten-foot model car; accompanying six people, on a track 180 feet long in the Lefler Electric-Magnetic Railway Company's indoor shop, at 153 Jefferson street. The car went round and round the track, backward and forward, fast or slow at the will of the operator, who worked with but a single lever. To stop it no brakes were needed.

A change in the method of street railway propulsion is the possible result. This public test, after many that have been made with apparatus more crude, led the inventor, P. W. Leffler, who is apparently a conservative mechanic and electrician to say:

"We either have the biggest thing going or else nothing at all. And I am convinced that we have the system which will do away with the trolley, overhead or underground."

P. H. Finnegan, the leading Director of the company, was even more enthusiastic.

"We are going to revolutionize the scheme of using electricity as a motive power for street railways, and possibly steam railways, the world over," he said. "Before leaving here Mr. Yerkes saw our plan and offered us \$100,000 for 51 per cent of the stock in our company."

The fundamental idea of the new system is "to cut a motor in two." The electro-magnets form one-half of the motor, and are placed in the ground in a line half way between the tracks. The other part, the armature, is attached lengthwise to the bottom of the car. It is a long iron bar, cut up into feet, and so attached

that the ends ordinarily are within an inch of the top of the magnet boxes. But the primary difference between the new system and the trolley car motor is that the electro-magnets do not cause the armature to turn the wheels. The new car is not propelled by the friction of the wheels with the track, but by the invisible force of magnetism.

Latest Bathing Suits.

Overshadowed is the familiar flannel and serge bathing suit this year by an array of pongees, silks and other fabrics in many colors, following the mode in other lines of dress, says the New York Press. Black and white checks are to be as fashionable in the water as on the street. Pongee and other materials of that color, including linen, are exceedingly stylish. Some of these are made up plain, but others are trimmed with straps or bands in white or black, stitched in tailor fashion. Red is a color that is seen in some of the new suits, but is rather too striking for most women.

Read Advocate want ads, page 6.

HARD TO BEAT

The Evidence of Our Senses—What Newark People Say is Pretty Good Proof for Newark People.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. Our friends endorse it. No better evidence can be had. It's not what people say in Maine. Or distant mutterings in California. No deceiving echoes here. Newark people talk about Newark people.

Public opinions published for the public good. There is no proof like home proof. Read this statement made by a citizen.

Mr. C. L. Wines, 295 Elm street, says: "I had more or less trouble with my kidneys. I need not dwell on the symptoms. It is enough to say that I suffered, was nearly helpless and could get nothing to help until I got Doan's Kidney Pills at Crayton's drug store. I happened to read in one of our local papers something pertaining to them. I went there and obtained some. I was much surprised at the quickness of the relief they gave me and I have told lots of other people about them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no other.

NEWARK MAN

RELIEVED OF THIRTY-FIVE FOOT TAPE WORM.

After Taking Only Three Doses of Dr. Cooper's New Discovery Medicine—Big Sales.

Another immense crowd of people gathered on Church street in the vicinity of the Brunswick bowling alleys to witness the big performance given by the artists who are traveling with Dr. Cooper who is engaged in introducing to the people of this country his wonderful New Discovery Medicine. There was even a greater crowd in attendance on Monday night than there was on Saturday night, and the street for nearly a block was jammed with a mass of people, all eager to see and so many wonderful cures during the short time he has been in Newark. Many in the crowd, who were anxious to secure a bottle of the medicine were unable to do so on account of the demand, and this morning while an Advocate reporter was at the Doctor's office, 54 West Church street, there was a constant stream of persons entering the room, all eager to secure a bottle of the health giving medicine.

During the Doctor's lecture Monday evening, Mr. J. R. Dickerson, who resides at 57 Mill street, made a statement in which he said that he was 19 years old, and that for a number of years he had been greatly troubled with stomach trouble and general weakness; that he had purchased a bottle of the medicine several nights ago and that after having taken three doses of the medicine he had been relieved of a tape worm some thirty-five in length, and that since that time he had found great relief. It is such testimonials as these that are building up the Doctor's practice in Newark and causing such a demand for the New Discovery Medicine.

LOT SALE

At 14 North Park Place, July 17 at 9 a. m.—Read the Notice Elsewhere in This Paper.

Special attention of the reader is directed to a large notice on another page relative to the proposed steel industry.

The location of this plant and the lots that are to be sold is five-eighths of a mile on an air line from the public square. On all but the south side of this addition, real estate is well built up. Lots on the west, north and east range in price from \$250 to \$400.

S. F. Van Voorhis is the trustee named by the Board of Trade.

The lot sale begins at 9 a. m. Thursday, July 17. The Board of Trade has secured space in the office at 14 North Park Place for opening the lot sale. Read the notice on another page.

There's no soaking required if you use Mrs. Austin's Quick Lunch Tapioca. Ready in a minute. Your grocer can supply you.

Trades Council.

There will be a special meeting of Newark Trades Union and Labor Council at Labor Hall this evening. Let every delegate be present as business of importance will be transacted.

What Disease Produces Most Misery. If the amount of misery caused by different diseases could be estimated it would be found the portion caused by headache would outweigh any other, and perhaps equal all combined. Immediate relief is afforded by Clinic Headache Wafers, perfectly safe, easily taken and do not depress. 10 cents at Hall's drug store.

Have you read the Advocate's guessing contest found in another column? Thirty-five prizes will be given to persons making nearest guesses to the population of Newark, which will be announced about the middle of August. Advertisement in another column will tell you all about it.

Could Not Lie Down, Sit Up or Stand. Without Experiencing the Most Excruciating Pain.

PAINE'S Celery Compound

After the Failures of Physicians, Special Medicines and Electric Battery, Banishes Pain and Tortures and Restores Health.

In the ranks of sick, tortured, and distressed suffering men and women have become hopeless because of the failures of physicians and their medicines.

We would have all such dejected and despairing mortals take comfort this very day. We would impress upon them the blessed truth that Paine's Celery Compound is abundantly able to save and cure even at the eleventh hour. Paine's Celery Compound accomplishes its life-saving work for the old and young when all other medical treatment fails. A multitude of people have furnished strong and incontrovertible testimony in support of the statement that "Paine's Celery Compound makes sick people well." Mr. John W. Boyd, of Mishawaka, Ind., refers to his own case as follows:—"Last winter I was taken down with a very severe attack of nervous and muscular rheumatism, so bad that I could not lie down, sit up or stand, without the most excruciating pain. It was all the time under the care of two of the best physicians of the place but I did not improve. I took different rheumatism cures and used an electric battery a half hour each day for ten days without any relief. Finally I concluded to try Paine's Celery Compound, and to my surprise after using one-half of a bottle, I was able to get out, and before I used the whole bottle I went to work and have worked every day since. I have gained 20 pounds in weight and am feeling first rate."

SECOND SYNOD

Of Diocese of Columbus Convened on Wednesday Morning at St. Joseph's Cathedral for a Day.

The second Synod of the Diocese of Columbus will convene Wednesday morning at 8 o'clock in St. Joseph's Cathedral for the promulgation of the laws and regulations of the diocese. The following will be the officers of the Solemn Pontifical Mass, at which all the clergy of the diocese are obliged to be present. The Right Rev. Henry Moeller will be the celebrant. The Deacons of Honor are V. Rev. Dean Heartnedy of Steubenville, and V. Rev. B. M. O'Boylan of Newark. Assistant priest Rev. M. M. Moore, Columbus; Revs. A. J. and Z. B. Mattes, acolytes; Rev. L. Mandery, New Lexington, cross bearer; Rev. A. Dengler, mitre bearer; Rev. B. F. Hanna, Jackson, censor bearer; Rev. R. McEachen, candle bearer; Rev. F. W. Howard, master of ceremonies. It is not known how long the Synod will last, but it is thought the business will be finished in one day as the subject matter has already been revised and commented on by the priests of the diocese, to whom advanced proofs were sent several weeks ago.

Have you made a guess yet on Newark's population? If not try your hand for one of the prizes. See announcement with conditions in another column.

The city of Chicago has determined to compel all applicants for positions as school teachers in the public schools to pass a physical as well as educational examination before they are licensed.

HORSES WANTED

Wanted to hire about thirty horses for artillery service at permanent encampment grounds to be delivered for use July 27. Inquire of J. M. Jones, Long.

position to a perpetual franchise. At the meeting of the committee on Friday, to consider the franchise, no expressions favoring it were heard from any member of the board of aldermen. The New York Central is supposed to have something to do with the unexpectedly developed opposition. More money, quicker payments and a limitation on the franchise grant are demanded.

Saved a Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I took Dr. King's New Discovery for Consumption and was completely cured. Sufferers from Coughs, Colds, Throat and Lung Trouble need this great remedy, for it never disappoints. Cure is guaranteed at Hall's Drug Store. Price 50c and \$1.00. Trial bottles free."

CAMP MCKINLEY.

(Continued from Page 3.)

number of admirers before him, who enjoy talking to him.

The telephone exchange was completed this morning and now all of the various headquarters are connected with each other and the long distance phones in the city. The line when completed will be the longest lance line ever put up in the state.

Captain Vincent of the Battalion of

LLOYD W. HOWARD, Major Sixth Infantry, O. N. G.

Engineers, who has charge of the Newark Independent Telephone company for their courtesies.

General Corbin of the United States army wired Governor Nash this morning that he could not be in camp to inspect the Guard for the Government, but that Major Rogers of the Twentieth infantry had been ordered here and would arrive Wednesday.

The parades of the different regiments were witnessed last night by a large number of the citizens of Newark and the country surrounding the

ARTHUR D. HILL, Second Lieutenant, Sixth Infantry, O. N. G.

camp. The parade of the First infantry was held on the rifle range which is admirably adapted to that purpose. The Sixth and Second gave their parade in the Shaw field, east of the camp of the Ninth battalion. While the Third and the Ninth held theirs in the Octagon.

While making the rounds this morning the Advocate man was asked many times why there were not more visitors in the camp. The members of the different regiments say they would like to see more of the town people here as the band concerts are all excellent, and visitors are always welcome.

In the Sixth regiment the men are all busy with the regular duties of camp life and have little time for amusements, although they are having a good time. A member of Co. K of the Sixth while trying to climb over one of the mounds fell and dislocated his elbow. The young man refused to allow his name to be published as he was afraid he would not be allowed by his parents to remain in camp.

Sergeant C. L. Kinney, Co. A of the Sixth, was chief of orderlies yesterday.

Fred N. Hale has been appointed a clerk at the office of the Assistant Adjutant General from Co. I of the First.

Corporal Arthur E. White from Co. I of the First is also an orderly at Brigade Headquarters.

The two remaining companies of

of Col. Bundy, and is composed of eleven companies. The boys of the command are a fine lot of fellows and seem to be greatly enjoying their outing.

Co. E of the First, has the distinction of having a former Major of the Ohio National Guard in the ranks of the company as a private. Major P. S. Currin, who was in command of the Third battalion of the Third Ohio during the late war and enlisted for this camp for the purpose of seeing for himself just what the life of a private in the guard during the camp is like. He has had a number of visits from the officers of the Third infantry who were with him in the Spanish American war. The Major is in the company commanded by Capt. Barnes who was for four years the first sergeant of the company commanded by the Major before he was elected to the position which he held during the war.

There are a number of newspaper men on the grounds and they are a great assistance to the regular staff correspondent on the grounds.

Captain M. D. Barnes of Co. E of the First of Sabina is the editor of the Sabina Tribune.

Colonel Bundy of the First is in charge of the United States Sub-Treasury located at Cincinnati. He is a good officer with an excellent record and is well liked by his men.

The First regiment is located near the western part of the camp grounds, west of the Third infantry. The ground is level and the camp in a position to get all the cool air coming that way.

The young son Frank of Major Rydman, Quartermaster of the Brigade, while riding Dick, the horse belonging to General McMaken, was thrown from the horse and slightly injured. The animal was frightened by another horse that was running away. The General has had the horse for a number of years and this is the first time the animal has ever shown any disposition to run away.

The quarters of the Brigade Hospital are all arranged and in one of the best positions on the camp grounds. There are four large Munsen hospital tents arranged in the form of a cross, with one of the tents for an office and dispensary and the other three are used as wards. They have room for twelve cots, and if necessary can accommodate at least twenty-five sick should the occasion demand.

The Brigade orderly for Monday was Corporal G. W. Mitchell from Co. C of the Second Infantry.

Lieut. Stratton, better known by the nick-name of "General Funston," has been detailed as instructor in the Sixth and will hold school this afternoon on the subject of the company.

Judge Cominger, son of Captain Cominger, adjutant of the Sixth, is visiting his son in camp today. The Judge is a resident of the city of Toledo, and is well acquainted with the regiment.

Major Howard of the First battalion of the Sixth infantry has been appointed on the permanent field court.

DR. FENNER'S KIDNEY and Backache CURE

All diseases of the Kidney, Bladder, Urinary Organs, Also Rheumatism, Backache, Heart Disease, Gravel, Dropsy, Female Troubles.

GUESTS

Of Governor Nash in Camp at Noon on Tuesday Were Members of Republican Committee.

Camp McKinley, July 15.—The members of the Republican Central Committee who have been in session today in Newark were at the camp today on the invitation of the Governor and were his guests for dinner. Those in the party were Colonel M. M. Gillett, E. S. Randolph, Fred M. Black, Gil C. Daugherty, Arthur Wyeth, T. J. Jury, A. Miller, W. H. Neff, Captain Inscho, Major W. A. Irvine.

The committee recommended Arthur Wyeth and W. H. Neff for the long and short term respectively as deputy state supervisors of elections. L. H. Inscho was elected chairman of the executive committee, T. J. Judy, secretary, M. M. Gillett treasurer.

First Lieut. Russell Reeder of the Sixteenth company of Artillery, who is on leave of absence is the guest of the First regiment.

Captain James H. Smith was a guest at the camp today and paid his respects to the Governor.

The program for the concert that is to be given by the Second regiment band this evening follows:

March, Charge of the Rough Riders, Casey.

Overture, The Maiden at her Spindle, Suppe.

March, Tipperary, Fulton.

Marion Waltz, Ellenberg.

Japanica, Stanford.

Soldier Life, Keler Bela.

Selection from the Burgomaster, America.

INJUNCTION ALLOWED.

In the Court of Common Pleas Tuesday Robert L. Patton and others filed a petition asking that the Court issue a temporary injunction restraining the Central Ohio Natural Gas and Fuel Company from using, occupying or obstructing either side of the Utica and Johnstown road, in Bennington township along the lands of the petitioners. The Central Ohio Natural Gas and Fuel company is engaged in laying pipes along the Utica and Johnstown road for the purpose of conducting natural gas from the wells near Homer this county, to Columbus, and the petitioners claim that the work is being done without their consent, and without paying them any compensation therefor, to their great injury. Mr. McNaughton, formerly of Granville, is in charge of the work. A temporary restraining order was issued by Judge Sewad.

VICTIMS

Of Tracy Now Number Nine—Merrill's Body Found—Believed He Was Murdered in Cold Blood.

Seattle, Wash., July 15.—The body of David Merrill the convict who escaped from the Salem penitentiary with Harry Tracy, was found this morning near the poor farm just where Tracy said he had killed his companion. The finding of Merrill's body brings the number of Tracy's victims up to nine. Tracy in a statement to one of the many farmers he has held up during the hunt, admitted that he had killed Merrill, but said he was forced to do so. Merrill having attacked him. Later, Tracy said that he had killed Merrill in a duel, they having agreed that one must die as it was impossible for them to escape if they traveled together. It is believed that Tracy realizing that Merrill was a millstone about his neck killed him in cold blood.

VERY SICK—There is practically no change in the condition of Hon. William Bell today. At least he is no better.

Advocate census guessing coupon appears today on page 3.

A New System of Typewriting.

A new and evidently rather difficult system of teaching typewriting has been inaugurated in the Jersey schools for that sort of thing, says the New York Press. It is teaching or causing the pupil to acquire the study by feeling alone. "It is just like music," said the woman who had learned how and the one who was listening, rapt to her explanation could not regard her as less than inspired. It seems that the girls who are learning this hard thing do not look at the keyboard, but go entirely by the finger tips. The keys are not raised or in any way different from the usual ones, but the student is supposed to finally learn their location by association and thus to become expert. The advantages of this kind of skill are said to be marked increase in the speed movements and consequently more pay for the work done.

HELP BOOM NEWARK!

Lot Sale for Location of Big Steel Industry Opens Thursday July 17 at 9 a. m.

Lots are now worth all that is asked and value will certainly increase when the new factory starts. This industry means 300 new families and \$20,000 to \$25,000 more money here each month. It means more business for the town. IT MEANS GREATER NEWARK.

Within the past ten years Newark has undergone a wonderful growth, the population having been increased many thousands.

The erection of hundreds of new dwellings (500 within the past year alone) and the large increase in the city's population has not only stimulated business in Newark to a wonderful extent but has increased the value of every piece of business property in town and has added greatly to the value of all real estate in the city.

In short, the growth of Newark in the past decade has transformed an ordinary town into a thriving bustling city.

What has brought about this growth and this prosperity?

Any one who has studied the conditions at all carefully will say without a moment's hesitation that it is due to the introduction of new factories and to the increase of working force in many others.

The ball was started rolling when a lot sale brought the Heisey glass plant to Newark. This factory has made East Newark a city by itself. To be sure there are some lots in the Heisey addition that have not "moved" with the speed owners would wish, but this is unquestionably due to the failure to properly grade the addition before the lots were sold. But who would take back the money paid for a lot there and consent to let the factory leave town?

In the North End the Everett Glass Plant and the Rugg Halter Works have brought corresponding results.

In the West End the Jewett Car Works, the Moser-Wehrle Foundry, the Newark Iron and Steel company, the Baltimore Bent Wood Works, the Newark Machine Company, the Fes Factory and others have made the West End boom more than any other end of the city. Every merchant and professional man knows when these factories pay their men. All feel it.

The Newark Furniture company will soon start up the old Lane Plant with a force of men and the Shaler company is making headway in the manufacture of flouring mill apparatus. Other industries of the city are all active and growing.

Now the people of the city have an opportunity to add one more industry to the town—a big live industry the link of which is not to be found in Central Ohio. It is a plant such as is making Marietta, Middletown, Cambridge Norwalk, Canton and other places boom—namely a big rolling mill.

Rolling mill men get bigger wages than any other class of labor in the country. They are paid well and they spend their money. The proposed mill is to employ 300 men at an average wage of \$3.50 a day making a pay roll from \$20,000 to \$25,000 a month to be spent in Newark.

Such an industry means more houses, more people, more money for Newark.

The Newark Board of Trade has considered the matter fully and carefully and the leading men of the city have been consulted. An agreement has been made with Mr. Taylor whereby the city can secure this factory by selling lots in the Forry farm, which lies adjacent to the Moser-Wehrle foundry—right in the heart of the city. These lots will sell at \$250 and they will all be nicely graded and will be connected with the main part of the city by two streets to run under the railroad tracks, thus insuring the safety of the people living in that section. Lots nearly a mile farther from the Court House are selling today at a price higher than will be asked for these lots and who will question that they will increase in value when a mammoth plant with 300 employes, a plant working every hour in the 24 each day is established on the site?

The Board of Trade has appointed Mr. S. F. Van Voorhis of this city to act as trustee and he will handle all funds for lot payments and will turn the money over to the steel company as the company complies with its contract with the Board of Trade.

THE LOT SALE BEGINS THURSDAY AT 9 O'CLOCK.

REMEMBER, every lot is today worth the price asked for it and the value will increase the moment the whistle on the new factory blows. Get in line. Help the city and help yourself by buying one or more of these lots. Prices will range from \$200 to \$350.

VIOLIN

Worth Five Thousand Dollars Now in the Possession of Mr. Otto Meyer.

Mr. Otto Meyer, the well known Newark virtuoso, is now using what is probably the most valuable violin ever used in Newark and many of his friends have greatly enjoyed several impromptu concerts given in his masterly style on this instrument.

It is an Amati violin the actual value being about \$5,000 while its relative value may be enhanced indefinitely. The instrument is the property of Mr. Robinette of Zanesville, who loaned it to Mr. Meyer.

Mr. Robinette has the finest collection of Stradivarius, Amati, Guarino, and Guadagnini violins in this part of the country.

Mr. Meyer has a class in Zanesville, where his teaching and playing are gaining valuable appreciation.

ROAD NOTICE.

Notice is hereby given that a petition will be presented to the County Commissioners of Licking County, Ohio, at their next regular session in September, 1902, for the alteration of a County Road on the following line, to-wit:

Beginning at a point where the Dog Leg road intersects the Newark and Jacksontown road, in Newark township, a little north of Mt. Calvary cemetery, thence in a southerly direction along the line between lands of L. F. Tenney and Vogelmeier Bros., about 690 feet, thence in a southerly direction to intersect the old road at a point a little east of a spring on L. F. Tenney's land.

FRED H. VOGELMEIER,
Principal Petitioner.

Real Estate Transfers.

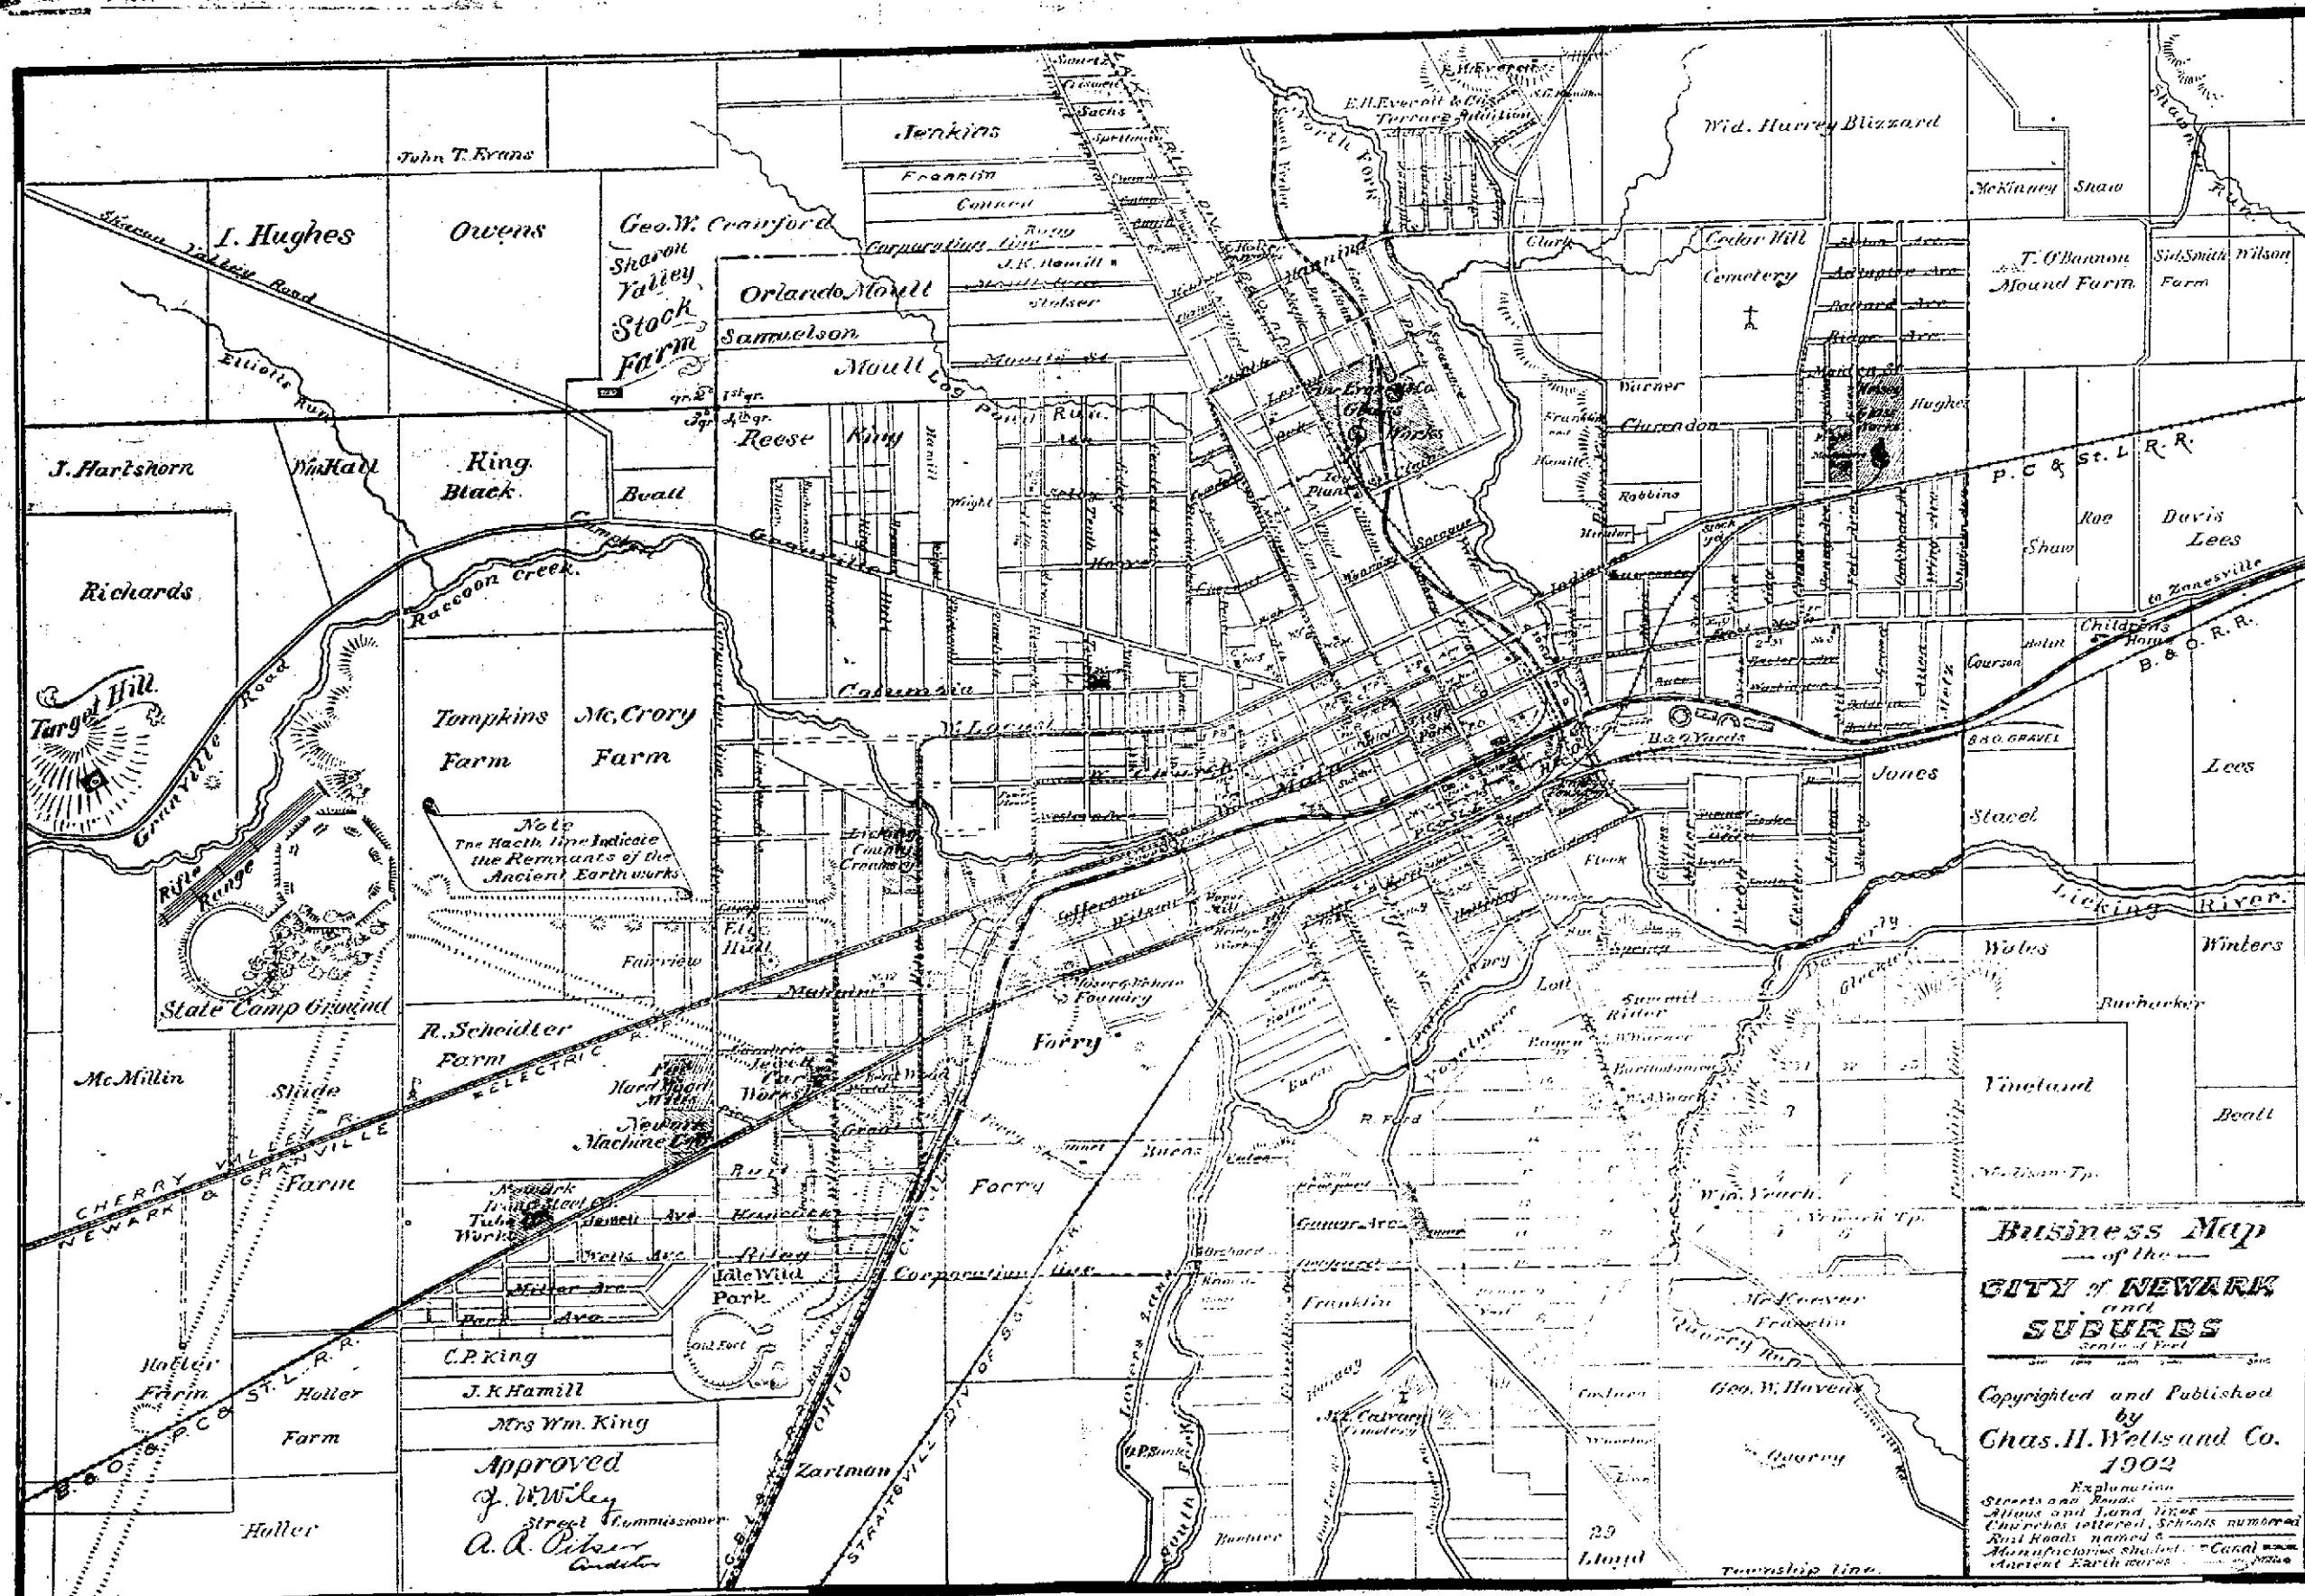

Wm. A. Hall to Maggie E. Hall, lot 135 in Utica, \$1.

Wm. C. Wells and wife and Wm. E. Miller and wife to Ada F. Dean, real estate in Erasmus White's addition to Newark, \$300.

Joanna Quimmler and husband to Martha M. Barker, real estate in Newark, \$2,800.

MOELLER

WILL REMAIN IN NEWARK FOR A WEEK.

Further Details of This Man's Strange and Pathetic Story—A New York Dispatch.

Adolph Moeller, the speechless paralytic, who will soon leave for Germany to come into possession of a handsome patrimony, as told by Monday's Advocate was seen this morning. He had passed a very comfortable and restful night at A. H. Seiler's Germania hotel on South Second street. He had heard read the Advocate's account of the matter, and expressed himself as highly pleased with its accuracy and general tone, in his peculiar manner.

Mr. Moeller will remain at the Germania for about a week, and will then go to Alliance to see his children, a girl aged 15, and a boy aged 9, after which he will immediately leave for Germany, Mr. Simross having by that time completed all arrangements for his transportation. Moeller has a mother, two brothers and one sister in the Fatherland, whom he has not seen for 21 years. He left there when a lad of 16, and has not since been back.

The Cleveland Plain Dealer has the following special from Mineola, Long Island, concerning Moeller:

"The old adage that truth is stranger than fiction was aptly illustrated here by the revealing of the identity of a prisoner who has been a mystery to Sheriff Johnson ever since his appearance at the jail. About ten days ago a poorly dressed man, apparently a tramp, applied to the sheriff for a night's lodging. He was paralyzed on the right side and was unable to speak or write, though his hearing and brain appeared to be as good as ever. Sheriff Johnson could not bear to see the poor vagrant turned away so he was given a good supper and a comfortable bed for the night. The next morning efforts were made to find out the identity of the outcast, but without success, as the man was unable to write or speak. Sheriff Johnson gave orders to search him and a slip of paper bearing the name of Mrs. Eva Johnson, Newark, Ohio, was found in his vest pocket.

"The sheriff wrote to Mrs. Johnson and asked for information concerning his prisoner. Saturday he received a reply from Mrs. Johnson, telling the strange story of the paralytic tramp. He is Adolf Miller and was employed for some time, by Walter Upson, of No. 391 North Third street, Newark, O., as stableman. Last November he had a stroke of paralysis and was sent to the hospital. After remaining there a short time he was removed to the county infirmary and then mysteriously disappeared and all trace of him was lost till he turned up at Mineola. How he ever reached there cannot be told, as he cannot take care of himself, and really needs assistance to walk. Shortly after his disappearance from Newark a cablegram was received from Germany worded as follows: "Chief of Police, Newark, O.: Is Adolf Miller of Elmshorn, Holstein, lame and penniless, in your poorhouse? Moeller, Lockstedter, Holstein, Germany."

"In a few days a letter was received from the same party saying that Miller had been left a legacy amounting to several thousands in trust for his support. In her letter Mrs. Johnson goes on to state that she had befriended Miller when he was penniless and just before he was taken to the hospital she gave him her name and address at his request and this slip was the means of his being restored to his fortune and friends.

"After receiving Mrs. Johnson's letter the sheriff went to the jail and read it to Miller, who understood its import and burst into tears and fell at the feet of Sheriff Johnson and kissed his hands, showing in his mute way that he was overcome with joy at being able to return to his old home. He has a wife and two children at Alliance, Ohio who have mourned the husband and father as one dead, and Sheriff Johnson's letter to Ohio caused despair to turn to joy.

"Miller was sent to Jersey City in charge of a prison attendant and was placed on a train for Newark, Ohio.

"Sheriff Johnson, in speaking of the strange affair, said: 'There is no doubt in my mind that the unfortunate man wandered away from home and was constantly pushed from one place to another by the charity authorities, who did not wish to be burdened with

North Side Square, above Sturdevant's Jewelry Store. Old 'phone 2 on 170.

The average longevity in the United States was 35.2 in 1900.

him. I feel sure that someone brought him to Mineola to be a charge of the county of Nassau, and I am rejoiced to think that he will soon be safe among friends and will never again know what it is to want, as his fortune will enable him to live comfortably with his little family until death releases him of all pain and suffering."

Y. M. C. A. Notes.

Matters are moving along finely in the preparation for the Y. M. C. A. picnic. The chairmen of the different committees are busy enlisting helpers on their respective committees and will soon be ready to announce the complete list and a program of the events that shall fill the day with pleasure.

ART AND ATHLETICS.

The Outdoor Movement Will Advance Art as Well as Health.

The universally increasing attention now being given, especially in Anglo-Saxon countries, to out of door sports and to physical culture is a sign of the best omen, says R. Hinton Perry in the July Outlook. No class can have a greater solace for the furtherance of this movement than the artists, for they cannot create beautiful forms without having beautiful forms around them from which to draw inspiration. The art of a nation is but the mirror of that nation's ideals and faithfully reflects their slightest change. This new conception of the value of athletics will add dignity, interest and standing, making it a factor second to none in the development of our civilization. It will be a mighty influence in the creation of a new and superior type of men and women.

That women are growing more and more to realize this is evidenced by the athletic tendency of the modern girl. If she will combine therewith an intelligent effort after well balanced and harmonious development, the results are bound to be satisfying in the extreme, for in many ways the female body is quicker than the male to respond to training.

Trades Council meeting tonight

Summer Sickness.
Most people who complain of illness in summer have been careless in eating or drinking. The overheated stomach is powerless to digest unsuitable food. In such cases BLOOD WINE is of great value, quickly restoring the stomach to a normal condition, creating a healthy appetite, and assisting in the digestion of the food. For sale by CITY DRUG STORE

FOOT BURNED—Dorothy, the little four-year-old daughter of Mr. Charles Hafner of 386 East Main street, had the misfortune to meet with a very painful accident on Monday afternoon. Parties about the house had been burning rubbish in the yard, and the fire had finally been allowed to smother. Little Dorothy, in playing about the yard, stepped into the embers of the fire, badly burning one of her feet, two blisters the size of a silver dollar, having been burned on it. Dr. Legge was the attending physician.

Figaro says that there is in Paris a night school at which young French assistants are taught British manners and the art of speaking French like Englishmen.

BEATS THE CIRCUS.

Brewery Horses, Routed by Fire, Go Over Their Routes.

Fire started in the Weissbrod & Hess brewery stables in Philadelphia the other day, and to save 100 horses they were turned loose into the street, says the New York World. The horses caulked about in wonderment, then each animal found his teammate, and off they started to do business. As calmly as though attached to brewery wagons the teams trotted off upon their various routes.

At a tavern two miles from the stable one team came to a stop at a watering trough where they daily stopped. After waiting the usual length of time they started to resume their route. Another team was last seen trotting contentedly side by side out the Bustleton pike bound for a farm where they were at pasture a few days ago.

Most of the horses were not recovered until they returned to the brewery after going entirely over their routes.

A New Occupation.

A society for the diffusion of knowledge concerning election laws has been established in London, says the New York Tribune. Miss Bertha B. Fischer has been made a fellow of it, having qualified by passing certain examinations. She is specially interested in arousing interest in diffusing information concerning political matters among women and in securing women to fill political posts now open to them.

In 1878 a Belgian company constructed the first street railway in the city of Cologne, Germany, and the road became the property of the city in 1897.
